MUNYON'S WITCH HAZEL SOAP

Having combined with Witch Hazel other heal-

ing medicaments, I most positively assert that

I am offering to the public the best toilet soap

I stated last week that I regarded soap as a medicine—that it either benefited or injured the whole system; that the pores of the body take into the system more or less of the soap. I endeavored to show how important it is to avoid poisonous fats and strong alkalies. I wish to emphasize this point to-day, and call special attention to the virtues of With Hazel as Nature's greatest remedy for the skin. That the public has found out the truth of this is shown by the hundreds of testimonials I have already received commending my Witch Hazel Soap. I had no idea that the demand for it would be so instantaneous-so large. Orders are coming in from every part of the country, and our factories are taxed to their utmost capacity to fill the orders. I feel confident that every cake of soap sold will sell many more. The soap is all that I claim for it. I want the people to have the same faith in it that they have in my remedies. Ten years ago when I told the public I had a Cure for Rheumatism they did not believe me. Time has proved the truth of my statement. To-day, when the entire country is stricken with Grippe, there are no remedies on the market having so extensive a sale as my Cold and Grippe Cures. They are demanded because the people know from experience, and from the "say so" of others, that they relieve the Head, Nose, Throat and Lungs almost instantly-and so I can refer to my Dyspepsia Cure, my Kidney Cure and all my remedies. My remedies are sold in every drug store throughout the civilized world, mostly 25 cents each, or Broadway, corner 26th street, New York City.-MUNYON.

Every day there were executions. One day sixtyeight were shot. They did not hesitate to resort to Oriental methods for the purpose of extracting evidence from their witnesses. The treatment of their prisoners, as I can

personally testify from what I saw, was most brutal." Mr. Lynch takes the missionaries to task for their looting. Further on he says: "The policy of the United States throughcut this whole Chinese business has to my mind been altogether admirable. I recollect talking with General Chaffee the day after the relief. He said to me: 'We had to come right up to relieve these people in the legations, and now the sooner we can get cut and go back home the better pleased I shall be. This appears to me the right policy not alone for the United States, but for all the rest of the rowers."

STRENGTH TESTS.

A Record After Using Different Foods.

J. Henry Myers, of Otsego, Mich., a traveling representative of a certain medical missionary association, made some strength tests with different foods, with the followficially connected with an institution manu-

"My desire was to add strength. I was in good health, and faithfully lived, almost entirely, for nearly two years on their foods and believed in them thoroughly. In January, '98, my strength test showed 5,700 pounds; in January, '99, b" the same machine, my strength test was only 4.560 pounds, a heavy falling off, notwithstanding I had not been sick, but had faithfully and religiously used the foods I so fully be-

"For a month after that test I was un-certain what to do. I felt weak, and what wanted was strength; so in February of that year I quit all other health foods an began using Grape-Nuts alone. My weight now has increased from 130 to 143 pounds my strength has increased from 4.500 pounds to 5,940, and I am now 1,609 pounds stronger by actual test, than the average man. My eyesight is clearer, my mind more active and stronger, and I can endure more labor. physical and mental, than ever before, "I do not know any person interested in the Postum Cereal Co., Ltd., and this letter is not written with any motive except to bring honest facts to the attention of perphysicians at the institution making the health foods that failed in my case, and

I will make oath that they are absolutel Mr. Myers's letter gives the name in ful of the concern making the so-called health foods, which failed in his case, but this name is not given to the public.
